Uri
this one is more accurate and clear so use it.
the first is the plaque content. put the names in bold or slightly bigger letters.
the second is the address to which it is to be sent.its the name of his chief deputy
pl verify to me that you've got it.try to print the plaque on paper in real size and send me a picture of it before actually producing the plaque.
be careful w the spelling of the names.
thx
